# **SAFETY DATA SHEET**

Bona SuperSport ELITE

Section 1. Identif	fication
GHS product identifier	: Bona SuperSport ELITE
Product code	: T121 -1-9
Chemical name	: Not available.
Other means of	: Not available.
identification	
Product type	: Liquid.
Relevant identified uses of	the substance or mixture and uses advised against
Not applicable.	
Supplier's details	: BonaKemi USA, Inc. (dba Bona US)
	24 Inverness Place E. Suite #100
	Englewood, CO 80112 (303) 371-1411
Emergency telephone	: 24 Hour Emergency Number: call CHEMTREC: US - 1-800-424-9300, International -
number (with hours of	1-703-527-3887
operation)	
Section 2. Hazard	ds identification
OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available
	for employees and other users of this product.
Classification of the	: Not classified.
substance or mixture	
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazards not otherwise classified	: None known.

## Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Chemical name	: Not available.
Other means of	: Not available.
identification	

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

### Section 3. Composition/information on ingredients

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/	effects, acute and delayed
Potential acute health effe	<u>cts</u>
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sym	<u>otoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.

### Section 5. Fire-fighting measures

Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Remark	: Not available.
Remark	: Not available.

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Eva ente	action shall be taken involving any personal risk or without suitable training. cuate surrounding areas. Keep unnecessary and unprotected personnel from ering. Do not touch or walk through spilled material. Put on appropriate personal ective equipment.
For emergency responders	Sec	ecialized clothing is required to deal with the spillage, take note of any information in tion 8 on suitable and unsuitable materials. See also the information in "For non- ergency personnel".
Environmental precautions	and	id dispersal of spilled material and runoff and contact with soil, waterways, drains sewers. Inform the relevant authorities if the product has caused environmental ution (sewers, waterways, soil or air).
Methods and materials for co	ntainm	ent and cleaning up
Small spill	if wa plac	b leak if without risk. Move containers from spill area. Dilute with water and mop up ater-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and e in an appropriate waste disposal container. Dispose of via a licensed waste osal contractor.
Large spill	wate plan abso	b leak if without risk. Move containers from spill area. Prevent entry into sewers, er courses, basements or confined areas. Wash spillages into an effluent treatment t or proceed as follows. Contain and collect spillage with non-combustible, orbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in cainer for disposal according to local regulations (see Section 13). Dispose of via a

### Section 7. Handling and storage

#### Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

information and Section 13 for waste disposal.

licensed waste disposal contractor. Note: see Section 1 for emergency contact

3/11

Section 7. Handlin	
Conditions for safe storage, including any incompatibilities	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materia (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and ke upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
Section 8. Exposu	e controls/personal protection
Control parameters	
Occupational exposure lim	
None.	
Appropriate engineering controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measu	
Hygiene measures	<ul> <li>Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.</li> <li>Appropriate techniques should be used to remove potentially contaminated clothing.</li> <li>Wash contaminated clothing before reusing. Ensure that eyewash stations and safe showers are close to the workstation location.</li> </ul>
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side- shields.
Skin protection	
Hand protection	<ul> <li>Chemical-resistant, impervious gloves complying with an approved standard should worn at all times when handling chemical products if a risk assessment indicates this necessary. &gt; 8 hours (breakthrough time): nitrile rubber</li> </ul>
Body protection	Personal protective equipment for the body should be selected based on the task be performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved b specialist before handling this product.
Respiratory protection	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.
Personal protective equipment (Pictograms)	

4/11

# Section 9. Physical and chemical properties

#### **Appearance**

Appearance		
Physical state	Liquid.	
Color	White.	
Odor	Not available.	
Odor threshold	Not applicable.	
рН	8	
Melting point	Not available.	
Boiling point	Not available.	
Flash point	Not available.	
Fire point	Not available.	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not applicable.	
Lower and upper explosive (flammable) limits	Not applicable.	
Vapor pressure	Not available.	
Vapor density	Not available.	
Relative density	Not available.	
Solubility	Soluble in the following materials: cold water and hot water.	
Solubility in water	Not available.	
Partition coefficient: n- octanol/water	Not applicable.	
Auto-ignition temperature	Not applicable.	
Decomposition temperature	Not applicable.	
SADT	Not available.	
SAPT	Not available.	
Heat of reaction	Not available.	
Viscosity	Not available.	
Flow time (ISO 2431)	Not available.	
Heat of combustion	Not available.	
Flame projection	Not available.	

# Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# Section 11. Toxicological information

nformation on toxicologica	l effects
Acute toxicity	
Not available.	
Conclusion/Summary	: Not available.
Irritation/Corrosion	
Not available.	
Skin	: Not available.
Eyes	: Not available.
Respiratory	: Not available.
Sensitization	
Not available.	
Skin	: Not available.
Respiratory	: Not available.
Mutagenicity	
Not available.	
Conclusion/Summary	: Not available.
Carcinogenicity	
Not available.	
Conclusion/Summary	: Not available.
Reproductive toxicity	
Not available.	
Conclusion/Summary	: Not available.
Teratogenicity	, Not available.

Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

	s and also chronic effects from short and long term exposure
<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health effect	<u>ots</u>
Not available.	
<b>Conclusion/Summary</b>	: Not available.
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.
Numerical measures of toxicit Acute toxicity estimates Not available.	Y
Interactive effects	: Not available.
Other information	: Not available.
Section 12. Ecolog	ical information
Toxicity	
Not available.	
Conclusion/Summary	: Not available.
Persistence and degradability Not available.	: Not available.
Conclusion/Summary	
Bioaccumulative potential Not available.	
Mobility in soil	

# Section 12. Ecological information

Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

#### Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Waste stream	: Not available.
<b>RCRA classification</b>	: Not available.

### Section 14. Transport information

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	ΙΑΤΑ

#### Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
